

Instructions for use of Tree/Limb Burn Area

The burn area is located immediately **NORTH** of the Collection Station. Follow the map below. Do not enter or place materials in the area west of the dumpsters. Doing so will result in a forfeiture of future use and a requirement that you clean the area. Pile branches and limbs on top of existing pile. Avoid placing material underneath the power lines to the west.

RULES FOR USE:

- Do not place anything other than approved materials in the burn site
- Approved materials include natural, unprocessed wood, branches, trees and limbs, weeds and garden waste
- Anyone found violating the rules of use will not be allowed to utilize the burn site in the future and will be required to clean the area
- All materials should be placed on or in close proximity to the existing pile
- You are responsible for things left in the site while you have the key checked out – Do not leave the gate unlocked and unattended
- Please report any problems to the City Office immediately at (435) 878-2221
- Processed lumber (lumber from the store), including all construction waste, cardboard and paper, tires, plastics, and other garbage are not allowed in the burn area

Please keep the area clean and allow us to continue to offer this service by following all of the rules. Thank you.
