State of the Art Ambulance

The City was able to purchase a new ambulance last month with the money that has been budgeted and set aside for the last 10 years. This ambulance is state of the art and is such an asset for our Community. Volunteers and patients will get to enjoy the advancements in technology contained in the new ambulance. With the increasing amount of ambulance calls that the Department gets, we will be keeping 3 ambulances. There are numerous times when both Medic 51

and Medic 52 are out on calls at the same time and now we will have the convenience of a 3rd ambulance, Medic 53, to

help when needed. Thank you to all of our EMS Volunteers. Your service is appreciated and does not go unnoticed!

The 2016-17 EHS Executive Council believes the main goal of E-Day should be to celebrate our unique little town of Enterprise!

They would like to extend E-Day to E-Week! They are currently working with City

Officials planning many different service projects to benefit the City and the School, and are hoping by working together this will be a very special week. They are planning many different activities the week of May 15-20. One of the main events planned is the EHS Service Day on Thursday, May 18th.

In addition, that week they plan to honor the oldest teachers and alumni in town. There will be dress up days, the lighting of the E, and the week will end with a community dance/activity on Saturday, May 20th.

In order to make E-Week and E-Day a success, they need participation from not only the students but also the Community members. Please plan to attend and support the E-Week festivities!

Take Pride in Keeping Our Community Clean

What more can be said about the Dump-Site located on 100 North? It is always a mess! Please, please help keep our Community cleaner by doing your part.

When the dumpsters are full, wait for them to be emptied before leaving your trash. When garbage is piled on top, and the good ole Enterprise wind blows, it is a recipe for a disastrous mess! Containing your trash would be helpful. Instead of placing loose garbage and paper in the bins, put it in garbage bags

to keep it from blowing away. Republic Services is emptying the dumpsters 3 times per week to help with this problem. Posted at the Dump-Site are rules for what can be placed in the dumpsters. Be familiar with them so you don't find yourself with a citation for not obeying the rules.

Furniture and appliances should not be placed in the dumpsters, or at the Dump-Site. Large items should be placed curbside. **Please call the City Office to schedule a pick-up.** These items are picked up

on Mondays. Please let the City know if your item does not get picked up.

Don't forget the Tree/Limb burn area just north of the Dump-Site. This is for tree branches, weeds, and garden waste, including cut grass. This area is for natural, unprocessed wood only and no other garbage is allowed in the burn area. You can check out a key at the City Office and can keep it over the weekend if needed. Please help out by placing garbage in the correct location.

Large Clean-Up Dumpster

There will be a large dumpster located at the Dump-site March 16-23. Please take advantage of this extra dumpster for your spring cleaning needs.

Change of Speed Limits!

Watch for a change in speed limits on North Center Street and also on

West Main Street. The signs are coming and will be put up in the next week.
